

gko::log::Logger

```
classDiagram
    class gko_log_logger["gko::log::Logger"]
    class gko_batch_log_batch_convergence["gko::batch::log::BatchConvergence< ValueType >"]
    gko_batch_log_batch_convergence --|> gko_log_logger
```

The diagram illustrates a class hierarchy. At the top is a white rectangular box labeled "gko::log::Logger". Below it is a gray rectangular box labeled "gko::batch::log::BatchConvergence < ValueType >". A blue arrow points from the top center of the gray box to the bottom center of the white box, indicating that "BatchConvergence" inherits from "Logger".

gko::batch::log::BatchConvergence
< ValueType >
