

```
gko::experimental::  
distributed::index_map  
< LocalIndexType, GlobalIndex  
Type >
```

The diagram illustrates a specialization relationship. A gray box at the top contains the template `gko::experimental::distributed::index_map` with parameters `< LocalIndexType, GlobalIndexType >`. A dashed orange arrow points from a white box at the bottom to the gray box. The white box contains the same template with parameters `< local_index_type, global_index_type >`. The arrow indicates that the white box is a specialization of the gray box.

`< local_index_type,
global_index_type >`

```
gko::experimental::  
distributed::index_map  
< local_index_type, global  
_index_type >
```
