

```
gko::experimental::  
distributed::index_map  
< LocalIndexType, GlobalIndex  
Type >
```

The diagram illustrates the inheritance of template parameters for the `index_map` class. A grey box at the top represents the base class `gko::experimental::distributed::index_map` with template parameters `< LocalIndexType, GlobalIndexType >`. A dashed orange arrow points from a white box at the bottom to the grey box. The white box contains the same class name but with different template parameters: `< local_index_type, global_index_type >`. The arrow indicates that the white box inherits from the grey box.

< local_index_type,
global_index_type >

```
gko::experimental::  
distributed::index_map  
< local_index_type, global  
_index_type >
```
