

```
graph BT; A[gko::local_span] --> B[gko::span];
```

A diagram illustrating a relationship between two C++ types. At the bottom is a white rectangular box with a black border containing the text `gko::local_span`. A blue arrow points vertically upwards from the top center of this box to the bottom center of a gray rectangular box with a black border at the top. The gray box contains the text `gko::span`. This visualizes `gko::local_span` as a base class or a type that inherits from `gko::span`.

`gko::span`

`gko::local_span`
